

Security Policy

Supported Versions

We actively support the following versions of Audityzer:

Version	Supported
1.x.x	:white_check_mark:
< 1.0	:x:

Reporting a Vulnerability

We take security vulnerabilities seriously. If you discover a security vulnerability, please follow these steps:

1. **Do not** create a public GitHub issue for the vulnerability
2. Email us directly at: security@audityzer.com (or create a private security advisory)
3. Include the following information:
 - Description of the vulnerability
 - Steps to reproduce
 - Potential impact
 - Suggested fix (if any)

Response Timeline

- **Initial Response:** Within 24 hours
- **Status Update:** Within 72 hours
- **Fix Timeline:** Depends on severity
 - Critical: Within 7 days
 - High: Within 14 days
 - Medium: Within 30 days
 - Low: Next scheduled release

Security Best Practices

When contributing to Audityzer:

1. Never commit sensitive information (API keys, passwords, etc.)
2. Use environment variables for configuration
3. Follow secure coding practices
4. Keep dependencies updated
5. Run security scans before submitting PRs

Disclosure Policy

We follow responsible disclosure practices:

1. We will acknowledge receipt of your report
2. We will investigate and validate the vulnerability
3. We will develop and test a fix
4. We will release the fix and publicly disclose the vulnerability
5. We will credit you for the discovery (if desired)

Thank you for helping keep Audityzer secure!
