Welcome to Audityzer Discord!

Welcome Message

Welcome to the **Audityzer Community**!

We're thrilled to have you join our mission to revolutionize Web3 security testing. This Discord server is your hub for:

- **Technical Discussions**: Deep dives into cross-chain security
- **Collaboration**: Connect with fellow developers and researchers
- **Updates**: Latest news and feature releases
- **Support**: Get help with implementation and troubleshooting
- **Feedback**: Share your ideas and suggestions

Server Structure

Announcements

- `#announcements` - Major updates and releases
- `#community-news` - Community highlights and achievements

General

- `#general-chat` - Open discussions about Web3 security
- `#introductions` - Introduce yourself to the community
- `#random` - Off-topic conversations

Development

- `#development` - Technical discussions and code reviews
- `#feature-requests` - Suggest new features
- `#bug-reports` - Report issues and bugs
- `#testing` - Beta testing and feedback

Specialized

- `#cross-chain-security` - Bridge testing discussions
- `#visualization` - Dashboard and UI/UX feedback
- `#integrations` - CI/CD and third-party integrations

Community

- `#showcase` - Share your projects using Audityzer
- `#jobs-and-opportunities` - Career opportunities in Web3 security
- `#events` - Community events and meetups

Roles

- **Core Team** - Audityzer development team
- **Contributors** - Active code contributors
- **Security Researchers** - Security experts and researchers

- **Designers** - UI/UX and visual contributors
- **Documentation** - Documentation contributors
- **Community Champions** - Active community members

Community Guidelines

1. **Be Respectful**: Treat everyone with kindness and respect
2. **Stay On Topic**: Keep discussions relevant to the channel
3. **No Spam**: Avoid repetitive or promotional content
4. **Help Others**: Share knowledge and assist fellow members
5. **Follow Discord ToS**: Adhere to Discord's Terms of Service

Getting Started

1. **Read** the `#announcements` for latest updates
2. **Introduce** yourself in `#introductions`
3. **Explore** our GitHub repository
4. **Join** relevant channels based on your interests
5. **Contribute** to discussions and development

Important Links

- **GitHub**: https://github.com/romanchaa997/Audityzer
- **Documentation**: Available in repository
- **Website**: Coming soon!

Ready to revolutionize Web3 security? Let's build the future together!
